

Environmental & Quality Policy

UK Waste Solutions gives its commitment to providing continuous improvement in its operational and management systems minimising the impact on the environment and the public.

We recognise our responsibility to deliver services in a environmentally friendly manner, and give our assurance that we will:

- Protect the surrounding environment
- Preserve natural resource
- Reduce environmental risks surrounding our services
- Environmental compliance
- Sustainable recycling and waste management programmes
- Compliance with internal and government regulatory obligation
- Ensure customer satisfaction by offering flexible services that meet their current and future needs
- Be at the forefront of all new development processes that will have the effect of reducing our impact on the environment
- Implementing quality management systems that will provide opportunities of improving our service and reducing the environmental impact of our activities
- Minimise the risk to our workforce, customers and the public by operating in a safe and compliant manner
- Promote a culture that rewards initiative and focuses on the development of all of our team
- Commit to providing training and development that gives quality to the service that we provide
- Identify any potential risks to our staff, sub-contractors and customers whilst operating our services
